# Star Fit<sup>®</sup>

High Performance High Precision High Quality

## FEATURES

- Controlled “Stretch” Feature eliminates belt tensioner
- Cord specification enhancement
- Rib rubber with special design fiber running surface
- Modulus Index equal to 1/3 of standard high modulus designs
- Extended Belt Life

## BENEFITS

- Strong durable tension strength for long life
- Low noise and high grip friction surface for accessory drive applications
- Maintains appropriate belt tension through belt life without the use of a tensioner for applications originally designed without a tensioner.
